Dear <<First Name>> <<Last Name>>,

We are celebrating the Jubilee of Hope, but we never thought we would witness such dark times. The lords of war - whether armed or commercial - reign (literally) on the political scene, and with their arrogance they humiliate millions of murdered or living victims. It is equally outrageous to see that the champions of democracy in freedom parade, one by one, through the office of death without managing to unite their interests and confront the threat that looms over the planet and all of humanity. The prophetic voice of Pope Francis is more necessary than ever; From his impotence the Pope reminds us of the voice of Jesus crucified: absolutely stripped of himself and at the antipodes of earthly power: from the cross. Thus they show us, once again, the only path left for Hope.

## GLOBAL NEWS IN SOCIAL JUSTICE AND ECOLOGY MISSION

### Social Analysis

Louis Prakash, S.J. explores the impact of climate change and food insecurity on marginalized communities in India, highlighting how natural disasters worsen their vulnerabilities.

[Read More: Climate Change, Food Insecurity, and the Marginalised of India](#)

### Promotio Iustitiae 58 (1994), 2

Albert Fritsch, S.J. wrote this article in 1994, calling Jesuits to become more environmentally conscious and take local, practical actions to address the global ecological crisis.

[Read More: Beacons of Sanity](#)

### Field Experience

The PURPAN Lamothe Campus is pioneering agroecological, energy, and food transitions through sustainable farming, research, and innovation.

[Read more: The PURPAN School of Engineering, Lamothe Campus: Towards a Model for Agroecological, Energy, and Food Transitions.](#)

### Testimony

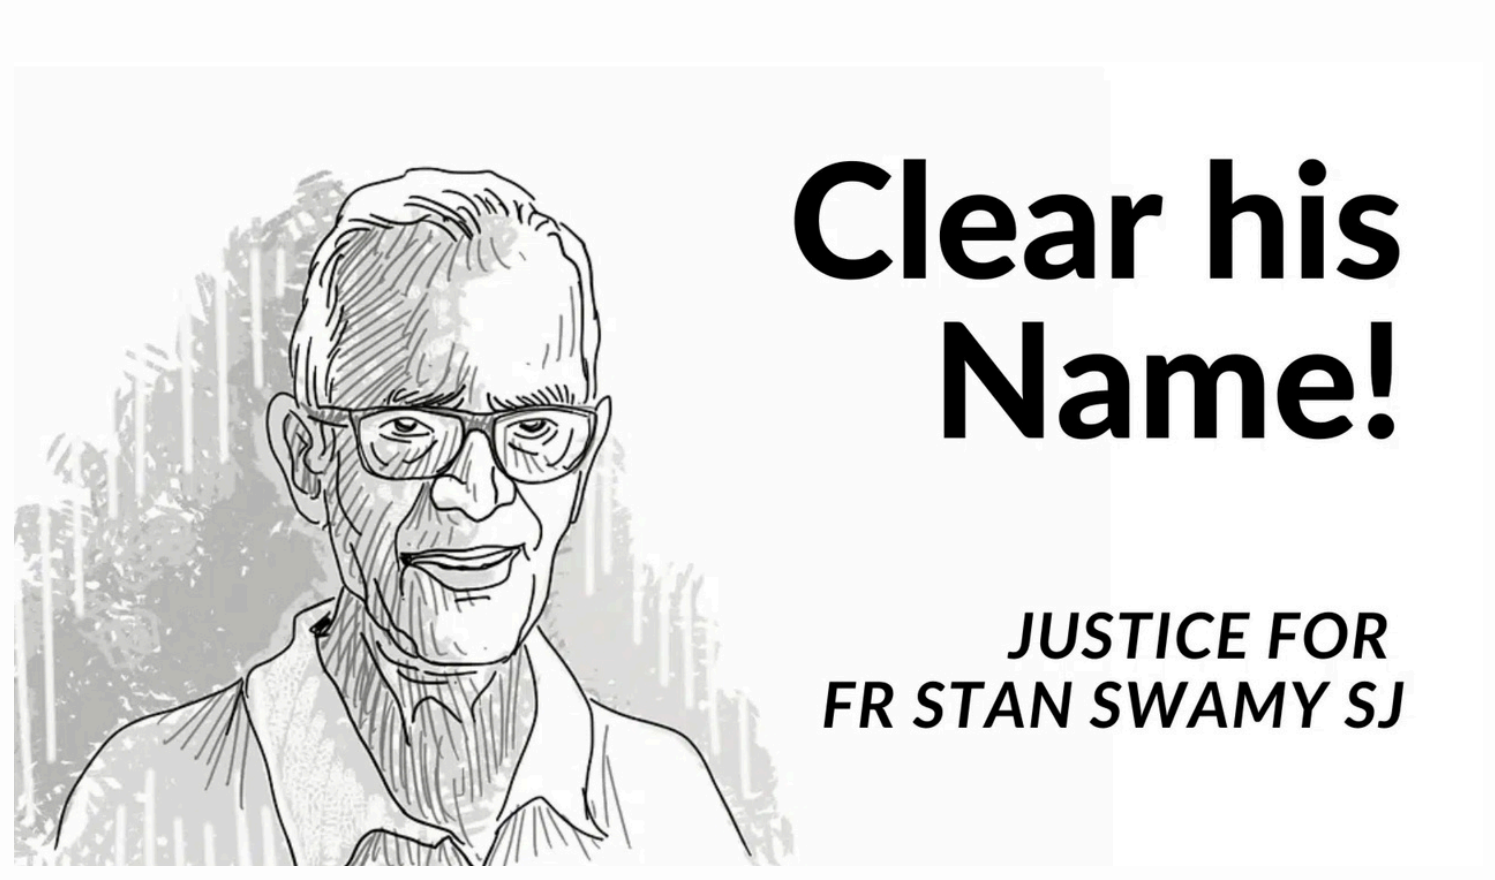

The Carbon Initiative of the Jesuit European Social Centre (JESC) helps faith-based organizations advance ecological sustainability through carbon assessments and action plans.

Justice for Stan Swamy! The Indian authorities knew the accusations against him were false. They owe to Fr Stan, his friends and family, his community and the entire Society of Jesus an official declaration of his innocence. UK Jesuit Missions invite us to take action and demand to clear the name of Fr Stan Swamy SJ.

As talks continue over the details of a ceasefire in the Middle East, many in Lebanon still require urgent humanitarian assistance.

[Read More: They've Lost Everything' - Xavier Network Continues To Support The Thousands Displaced By Conflict In Lebanon](#)

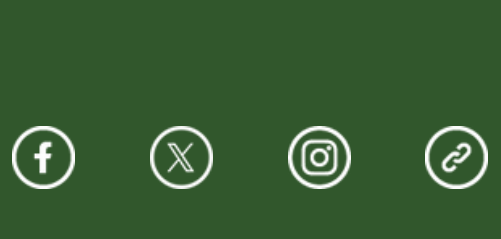

The central insight of Catholic social thought is that each human has a unique irrefragable of and, religion, colour, gender and virtue.

[Read More: Relationships are the foundation of justice](#)

"Prosperity Theology": this is the best known and most descriptive name for a neo-Pentecostal evangelical theological movement. The danger is that God is transformed into a power at our service, the Church into a faith supermarket, and religion into a utilitarian and eminently sensationalist and pragmatic phenomenon.
